EXPERIENCE

LTIMindtree, India: Cloud Services and Software: Software Engineer   Oct 2022 – Present

- Optimized core UI components of Traveler's insurance platform using AngularJS, enhancing user experience and application responsiveness.
- Migrated PCF applications to AWS, improving scalability and reducing infrastructure costs.
- Upgraded and migrated legacy .NET Framework applications to newer versions, ensuring better performance and security compliance.
- Developed and supported automation pipelines using Jenkins, Argo-CD, Terraform, and Vault Secrets across AWS EKS environments.
- Provided end-to-end development, automation, and production support, ensuring system reliability and minimal downtime.

SnarWeb, India: Improved Load Time of Application: Software Engineer Intern   March 2020 - May 2020

- Developed dynamic, responsive web pages using JavaScript, AJAX, and PHP, enhancing user interaction and page load performance.
- Successfully deployed a fully functional live website LMA during the internship, ensuring production-grade quality and stability.
- Earned a Letter of Recommendation from the Company's CEO for outstanding contributions and exceptional project delivery.

Bhumi, Chennai, India: Software Engineer Intern   Oct 2020 - Dec 2020

- Developed and deployed a client-focused website SARKARODISA to support Bhumi's mission of building an equal and socially conscious society.
- Collaborated closely with stakeholders to ensure the website met all functional and design requirements within tight deadlines.

EDUCATION

SRM Institute of Science and Technology, Chennai   June 2022
B.Tech, Computer Science & Engineering   91.20%
Relevant Coursework: Data Structures, Algorithms, DBMS, Operating System, Computer Networks

TECHNICAL SKILLS

Programming: C++, MySQL, AngularJS, PHP, AWS
Technologies: SQL, HTML, Bootstrap, JavaScript, .Net, ReactJS
Applications Used: Jenkins, Vault, MongoDB Compass, Argo CD, SNYK, Autosys Jobs
LeetCode Profile: https://leetcode.com/u/avasthiabhishek08/

PROJECTS

React Weather App   Dec 2019
- Built a responsive React app that fetches real-time weather data using APIs, displaying location-based forecasts with a clean UI/UX.
- WebApp Link: https://abhi-weather-app.netlify.app/
- GitHub Link: https://github.com/Abhishek6387724595/react weather-app
- Tech Stack Used: HTML, CSS, JavaScript, React-JS

CoronaGo: Real-Time COVID-19 Tracker for India   Feb 2020
- Developed a COVID-19 tracker displaying real-time, state-wise data across India, integrating APIs with a responsive and user-friendly dashboard.
- GitHub Link: https://github.com/Abhishek6387724595/coronago
- Tech Stack Used: PHP, JavaScript, HTML

LiveCricket: Real-Time Score and Match Scheduler App   June 2021
- Built a live cricket score app displaying real-time match updates and schedules for upcoming matches with a clean React UI.
- GitHub Link: https://github.com/Abhishek6387724595/live-cricket score-app
- Tech Stack Used: HTML, CSS, JavaScript, React-JS
